
→ Our continued commitment to AAPOR

ICF is a proud, longstanding supporter of the American Association for Public Opinion Research. This support takes many forms. In addition to serving as a Platinum Sponsor at this year's conference, our organization and staff are contributing in a number of ways.

Charter Member of the AAPOR Transparency Initiative

Since 2014, ICF has been a member and active supporter of [AAPOR's Transparency Initiative](#). As described by AAPOR, the Transparency Initiative is "designed to promote methodological disclosure through a proactive, educational approach that assists survey organizations in developing simple and efficient means for routinely disclosing the research methods associated with their publicly-released studies." The Transparency Initiative is "an approach to the goal of an open science of survey research by acknowledging those organizations that pledge to practice transparency in their reporting of survey-based research findings." To learn more about ICF's role, and our commitment to transparency, contact [James Dayton](#), senior vice president for survey research and member of AAPOR's Transparency Initiative Coordinating Committee.

Service at the conference

As we plan to meet in person for the first time since 2019, ICF staff are happy to support conference activities in several ways:

- AAPOR has been firmly committed to the health and safety of all attendees at this year's conference. To support and safeguard the well-being of all involved, AAPOR formed the Ad Hoc Health and Safety Committee. Vice President of Survey Research [Larry Luskin](#) is a member of that committee.
- Senior Vice President of Survey Research [James Dayton](#) will be participating in AAPOR Speed Networking sessions, sharing information on ICF and our impact around the world.
- Many of our staff attending this year's conference will be serving as moderators in one or more sessions, per the table below.
